Were dinosaurs on Noah's Ark?

Ceinturian, wikimedia commons

26 July 2000

1. Were dinosaurs even around then?

The story we have all heard from movies, television, newspapers, and most magazines and textbooks is that dinosaurs 'ruled the Earth' for 140 million years, died out 65 million years ago, and therefore weren't around when Noah and company set sail on the Ark around 4300 years ago.

However, the Bible gives a completely different view of Earth (and therefore, dinosaur) history. As God's

Fossil Formation

- 1 An ancient crocodile dies in a river.

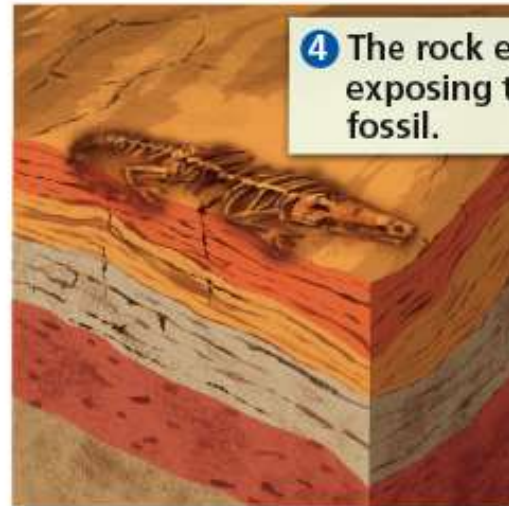

- 2 Sediments cover the body.

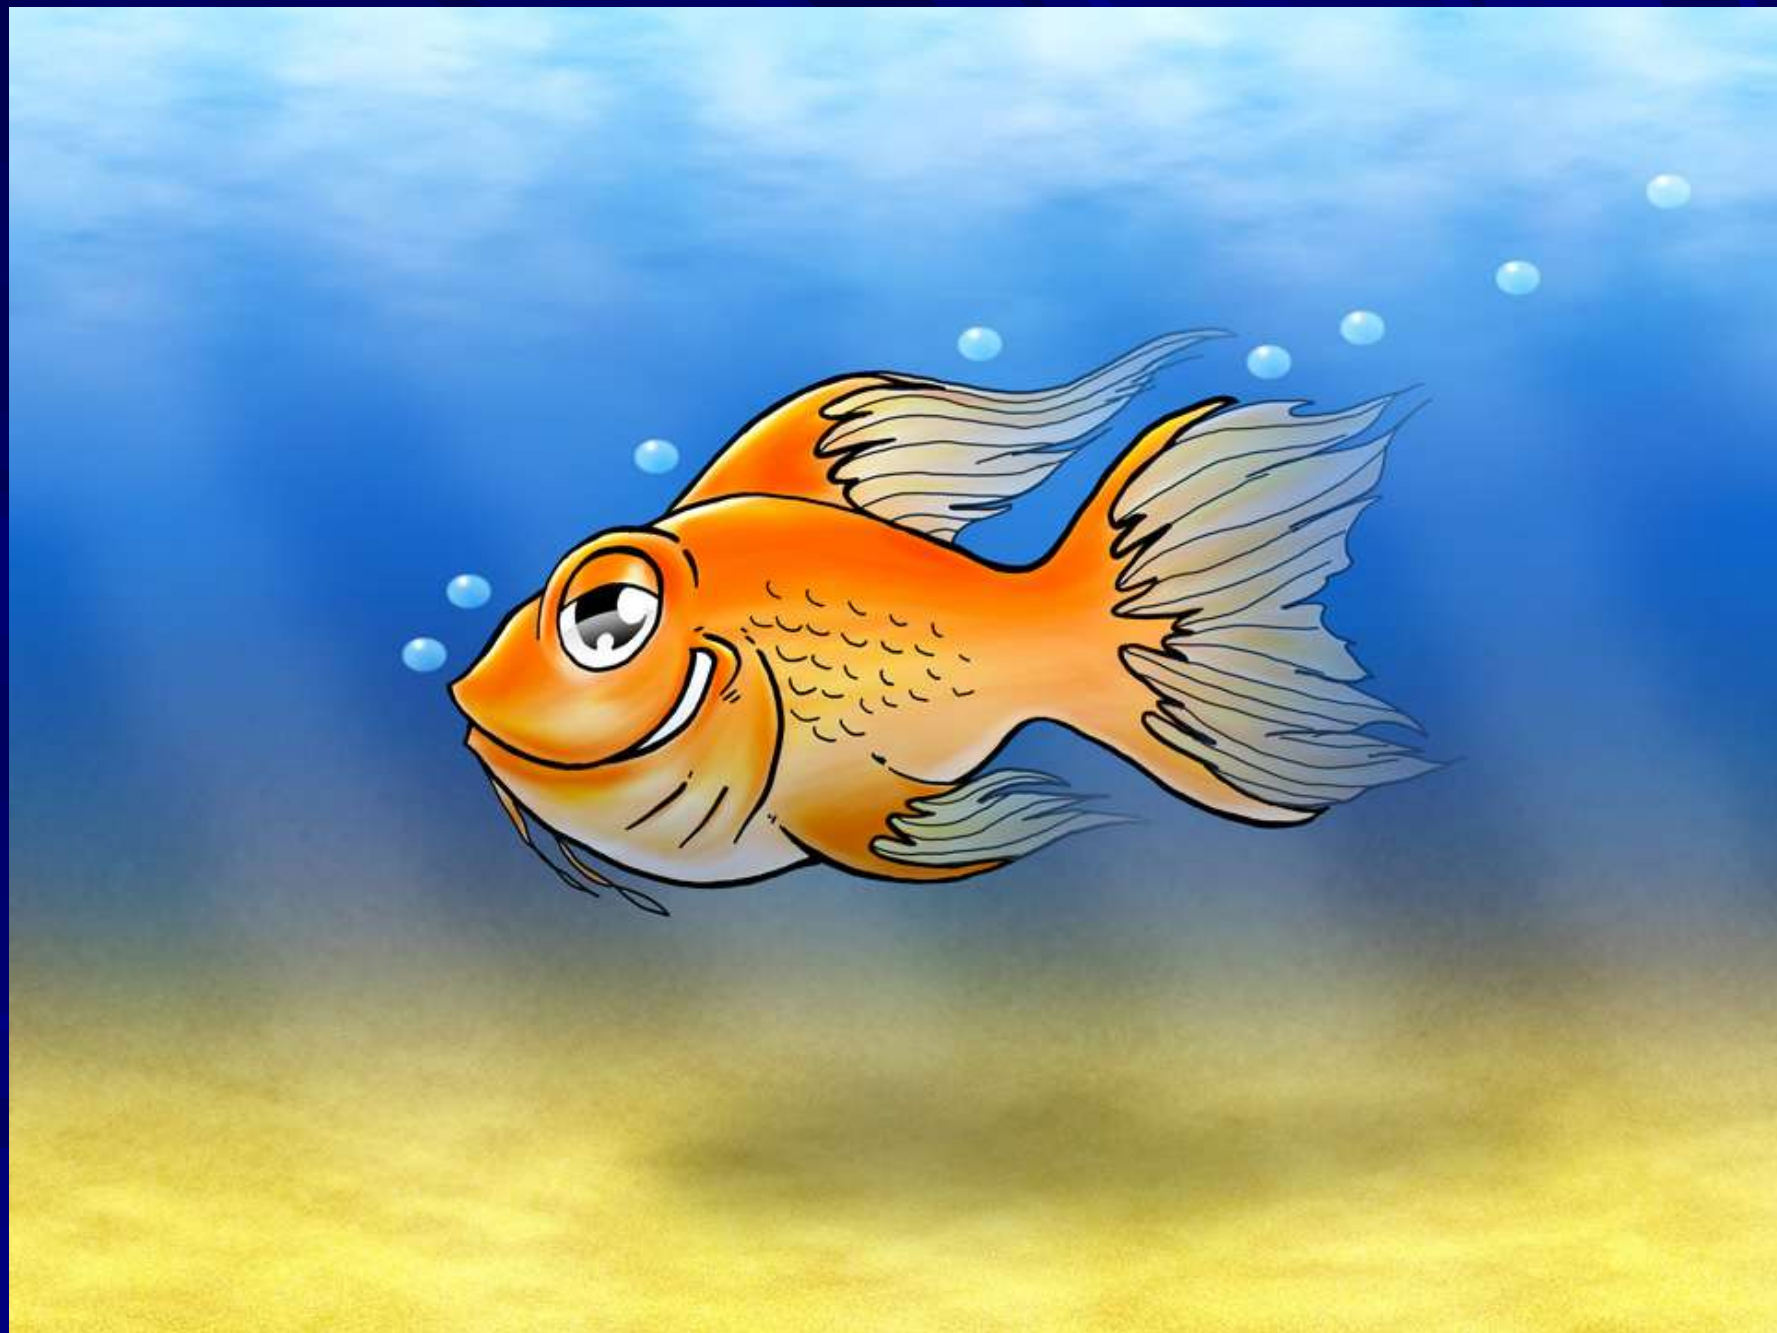

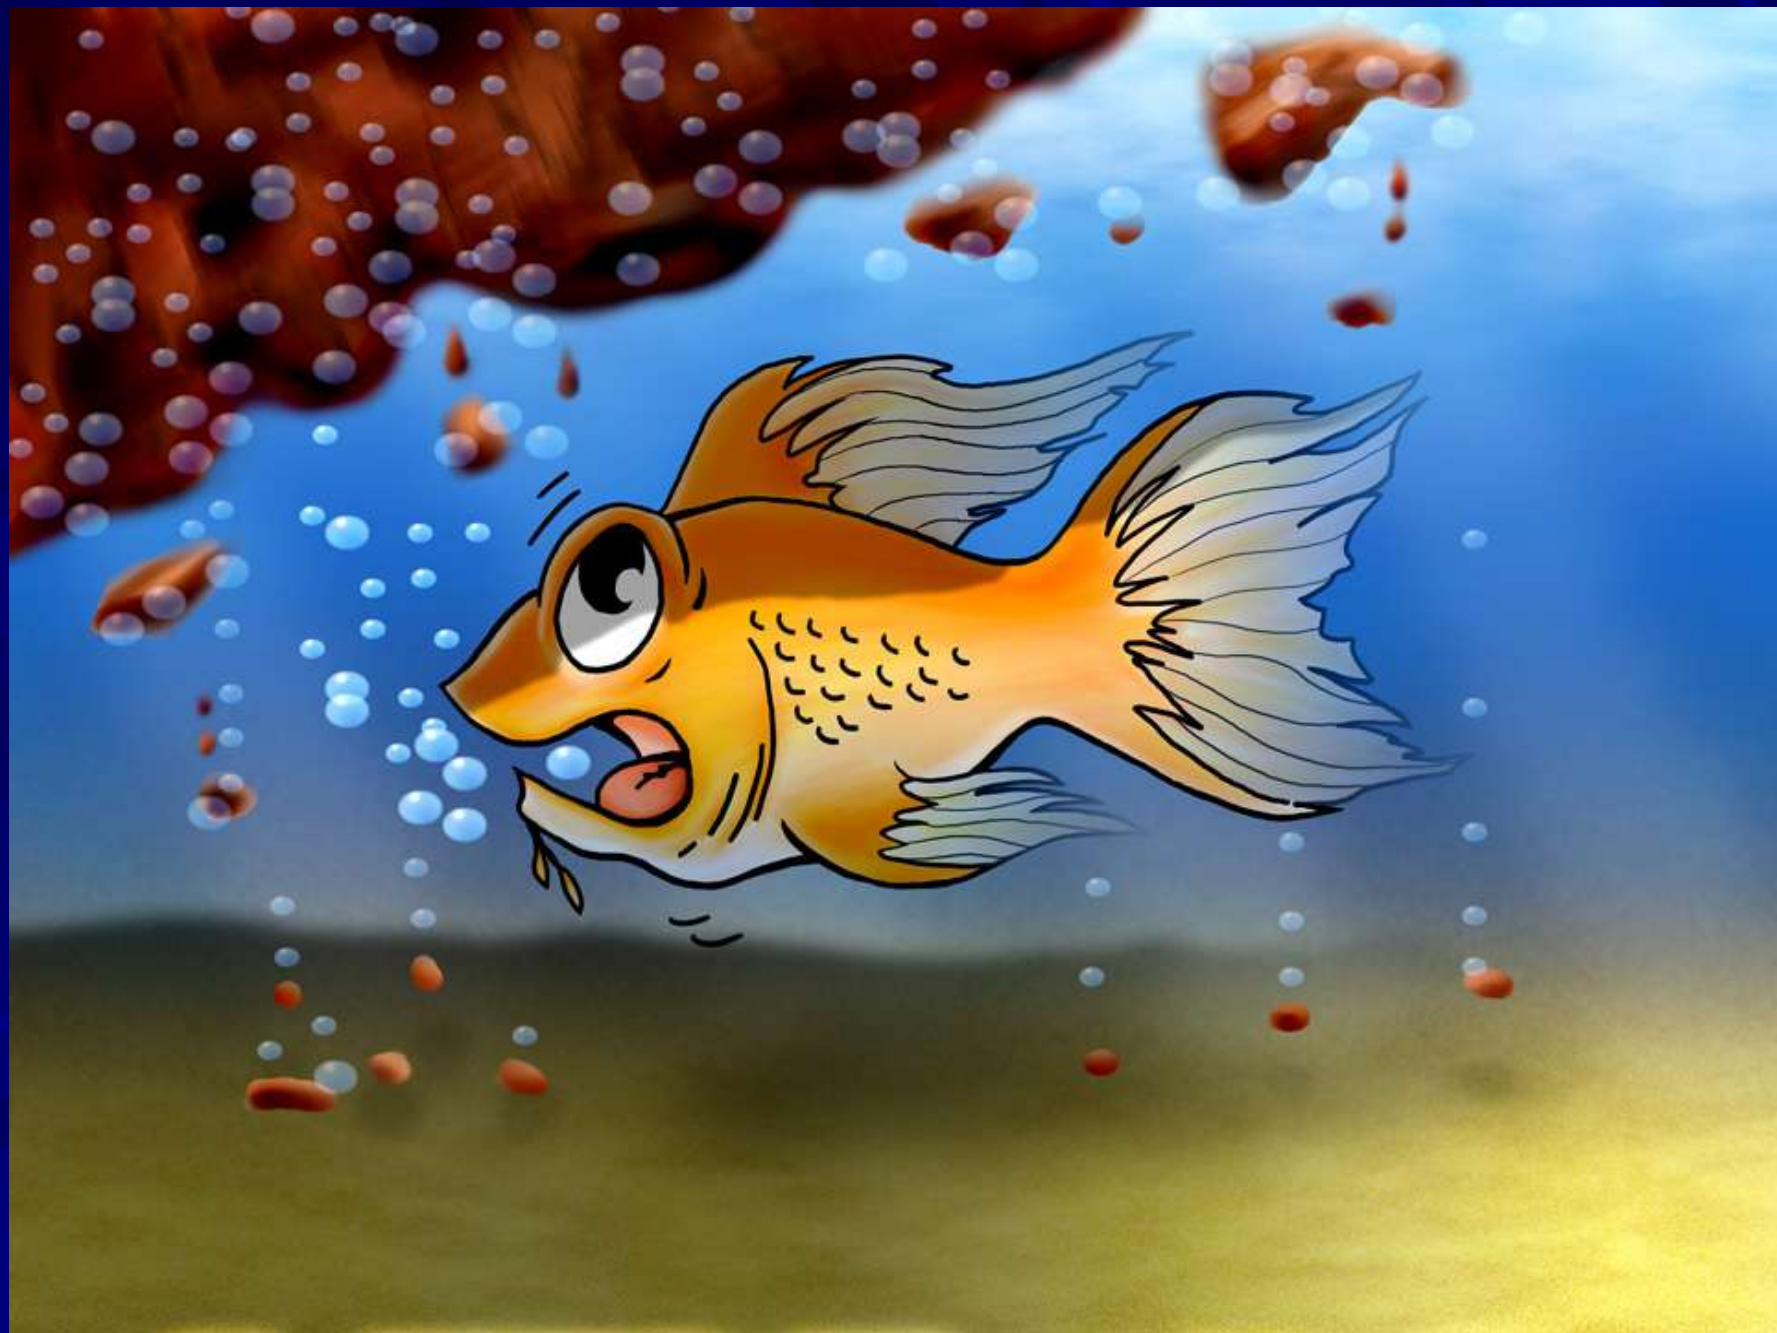

- 3 Over millions of years, the sediments become rock. The crocodile becomes a fossil.

- 4 The rock erodes, exposing the fossil.

GENESIS 6-9

Toe sien God alles wat Hy gemaak het,
en dit was **baie goed**.

Genesis 1:31

*“Ek gee aan julle al die **plante** wat saad gee...
en al die **bome** waar vrugte aan is, wat saad dra.”
(mense)*

Genesis 1:29

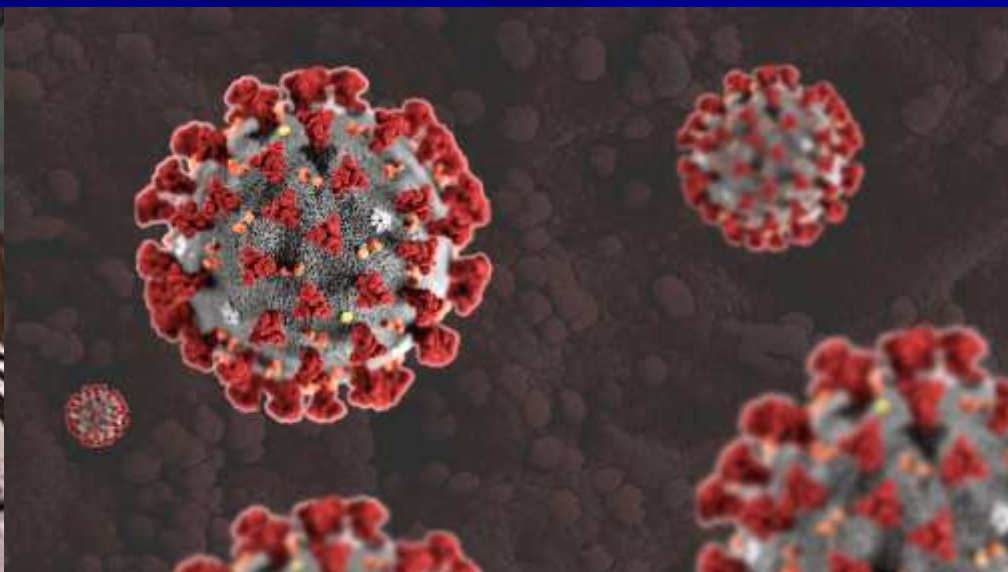

*“...gee Ek al die **groen plante** as voedsel.”

Genesis 1:30

BAIE GOED?

*“...**vervloek** is die aarde om jou ontwil...”*

Genesis 3:17

*“...want die dag as jy daarvan eet,
sal jy sekerlik **sterwe**.”*

Genesis 2:17

*“Want **stof** is jy, en tot **stof** sal jy terugkeer.”*

Genesis 3:19

Daarom, soos deur een mens die **sonde** in die
wêreld ingekom het en deur die sonde die **dood**...

It is commonly believed that petrification is a process taking millions of years. . . not true! Under ideal conditions petrification can take place in as few as three weeks. You are looking at parts of petrified flour sacks from the Blue Spring mill. (Note stitching at the end of the sack.)
